**DAVID TISHBI  
ON MEN'S JEWELRY**

**WHAT IS YOUR  
FAVORITE ASPECT  
OF WORKING IN  
MEN'S JEWELRY?**

"It is the combina-  
tion of simplicity and  
masculinity I like  
most. One of my phi-  
losophies is nobody  
should compromise  
on comfort, and men  
tend to follow this.  
Another element I  
really like is substance.  
I enjoy making heavy  
pieces with rough-  
hewn textures."

**WHAT DO YOU SEE  
AS THE MAJOR  
TREND IN MEN'S  
RIGHT NOW?**

"Layering has crossed  
over. Men have started  
to layer both bracelets  
and necklaces. Color is  
also a trend. Men used  
to wear a simple onyx  
or diamond ring set  
in silver or platinum;  
today they wear col-  
ored stones, bracelets  
and rings. I add the  
color component into  
the metal itself."
